## EDUCATION

### BSc in CSE

Institute of Science and Technology

04/2013 – Present

### HSC

Salimullah College

01/2011 – 01/2013

## PROJECTS

### Human Resource Management using PHP Mysql

A responsive web application which I made for LICT course. It is a great system for a company where the administrator is controlling the company's whole system. Employee attendance, salary, leave application and enroll system. I use PHP, mysql, bootstrap, html, css and jquery.

### Result Processing System using php Mysql

A responsive web application which I made for a college. It is a great system for a college or school where the administrator is controlling the college/school's whole system. Student attendance, result, encourage mark, enroll management system, and review.

### HRM Project Using Laravel Mysql

A responsive web application which I made for my practice. It is a great system for a company where the administrator is controlling the LARAVEL, mysql, bootstrap, html, css and jquery.

### Student Management System Using Laravel Mysql

A responsive web application which I made for a college. It is a great system for a college or school where the administrator is controlling the college/school's whole system. Student attendance, result, encourage mark, enroll management system, and review.
